

2 & 3 FEBRUARY 2021

On-Line Draft Programme

Day 1 02 FEBRUARY MORNING

10:00-11:30 Session #1 | Opening Session

Moderator: Kristian [Ruby](#), Secretary General of Eurelectric (confirmed)

- 10:00-10:10** ■ **Introduction:**
Adina [Valean](#), EU Commissioner for Transport (confirmed)

- 10:10-10:30** ■ **Presentation of EY-Eurelectric Report on Scaling Up Fleet Electrification:**
Serge [Colle](#), Global Power & Utilities Leader, EY (confirmed) confirmed)

10:30-11:30 Panel Debate moderated by Kristian Ruby:

- Dr. Miriam [Dalli](#), Minister for Energy, Enterprise and Sustainable Development (confirmed)
- Miguel [Stilwell de Andrade](#), CEO of EDP (confirmed)
- Christina [Bu](#), Secretary General, Norwegian EV Association (confirmed)

Day 1 02 FEBRUARY AFTERNOON

14:00-15:00 Session #2 | Power Talk: Moving towards Mass Adoption of Electric Vehicles & Efficient Charging Management

The demand for electrification in transport is a trend no-one can dispute any longer. The move toward EVs across a wide range of fleets is on the rise but not happening fast enough. Apart from providing significant carbon reductions, fleet EVs offer a clear pathway for **renewable energy integration** with a solid business case going forward. What matters most now is **how to ensure the efficient charging of these vehicles**. This panel will explore the **main challenges and recommended actions** for the **implementation** of efficient charging **services** in a world where EVs are **the new normal**.

Moderator: Roger [Atkins](#), Founder – Electric Vehicles Outlook Ltd (confirmed)

- 14:00-14:10** ■ **Keynote Speech:** Thomas [Ulbrich](#), Member of the Management Board, e-Mobility Division, Volkswagen (conf)

- 14:10-14:20** ■ **Response by** Doron [Frenkel](#), CEO of Driivz (confirmed) **followed by power talk**

Panel Debate including above speakers:

- 14:20-15:00**
- Alberto [Piglia](#), Head of e-Mobility, Enel X (confirmed)
 - Elias [Pöyry](#), CBO and Co-Founder of Virta Global (confirmed)
 - Karsten [Wildberger](#), Board of Management Member, COO Commercial, E.ON SE (confirmed)

Day 2 03 FEBRUARY

10:00–11:30 Session #3 | Scaling up Fleet Electrification

Building on the joint EY-Eurelectric work on fleet electrification, this panel will look at **scaling up fleet electrification** – the catalyst for a **faster, easier and more affordable transition to electric mobility**. Identifying and unlocking the full **benefits** of an electric fleet across different B2B segments allows innovative fleet owners to **better understand** the vast opportunities.

- **Introduction by:**
Nico [Rosberg](#), Sustainability Entrepreneur & 2016 F1 World Champion (TBC)
- **Keynote Speech: Annual EV Outlook**
Dario [Traum](#), Head of EMEA Energy Transition, BNEF (confirmed)

Moderator: Thierry [Mortier](#), Global Innovation Lead for Energy, EY (confirmed)

Panel Debate including above-speaker:

- Sandra [Roling](#), Head of EV100, The Climate Group (confirmed)
- Rob [Fowler](#), CEO of Volta Trucks (confirmed)
- Angela [Hultberg](#), Head of Sustainable Mobility, Ingka Group (IKEA) (confirmed)
- Mike [Lightfoot](#), Chief Corporate Affairs Officer, LeasePlan (confirmed)

14.00–15.00 Session #4 | The Business of EV Charging

Fleet management services will be a big market, offering **space** for innovative market players to introduce **new services** and business offerings. This requires a future-proof charging service with **intelligent and easy-to-use tools** tailored for business owners and end-customers. This panel will include early-mover companies and experienced experts will **present and discuss innovative solutions** for solving the key challenges of today and tomorrow.

Introduction: The Business of EV Charging

Chris [Peeters](#), CEO, Elia Group (confirmed)

Moderator: Byeronie [Epstein](#), Manager Mobility, World Business Council for Sustainable Development (WBCSD) (confirmed)

Panel Debate: Sustainable Business Model for EV Charging – what are the ingredients?

- Christopher [Burghardt](#), Managing Director Europe, ChargePoint (confirmed)
- Eric Plaquet, President & CEO, GIREVE (confirmed)
- Amazon, Sustainable Transportation (invited)
- Perspective of Investor/Asset Management Community

15:30– 16:30 Session #5 | Advanced Charging Solutions

Strongly driven by innovation, the EV charging ecosystem can evolve across the various B2B segments for fleet vehicles in order to provide for the most efficient charging service. This panel will showcase **charging solutions going beyond 'plug-in and forget'** – vehicle to grid, wireless charging and much, much more. The questions we are all asking: **how soon will these solutions become widely available and what will it take to deploy them at scale?**

Moderator: Ioannis [Vlachos](#), Engagement Manager, Energy Web (confirmed)

Panel Debate:

- Andrew [Daga](#), President & CEO, Momentum Dynamics (confirmed)
- Oren [Ezer](#), Co-Founder & CEO, ElectReon (confirmed)
- Francisco [Carranza](#), Managing Director, Nissan Energy (confirmed)
- Thierry [Lassus](#), Transportation Segment Leader, Hitachi ABB Power Grids (confirmed)
- N.N. (EDF Group) (confirmed)

16:30– 16:45 Concluding Remarks – Petar [Georgiev](#), E-mobility Lead, Eurelectric (confirmed)
