**Day 1  02 FEBRUARY MORNING**

10:00–11:30  Session #1 | Opening Session

- Kristian Ruby, Secretary General of Eurelectric (confirmed)
- Miguel Stilwell de Andrade, CEO of EDP (confirmed)
- Christina Pål, Secretary General, Norwegian EV Association (confirmed)
- MEP Miriam Dalli (confirmed)
- Presentation of EY-Eurelectric Report on Scaling Up Fleet Electrification
  Serge Colomb, Global Power & Utilities Leader, EY (confirmed)
- Q&A with EY and Eurelectric Representative

**Day 1  02 FEBRUARY AFTERNOON**

14:00–15:00  Session #2 | Fireside Chat | Moving towards Mass Adoption of Electric Vehicles and Efficient Charging Management

The demand for electrification in transport is a trend no-one can dispute any longer. The move toward EVs across a wide range of fleets is on the rise but not happening fast enough. Apart from providing significant carbon reductions, fleet EVs offer a clear pathway for renewable energy integration with a solid business case going forward. What matters most now is how to ensure the efficient charging of these vehicles. This panel will explore the main challenges and recommended actions for the implementation of efficient charging services in a world where EVs are the new normal.

**Moderator:** Roger Atkins, Founder – Electric Vehicles Outlook Ltd (confirmed)

**Keynote Speech by:**
Thomas Ulbrich, Member of the Management Board, e-mobility division, Volkswagen (confirmed)

**Panel debate including above speaker:**
- Doron Frenkel, CEO of Driviz (confirmed)
- Francesco Venturini, Chairman and CEO of Enel X (confirmed)
- Thomas Ulbrich, Member of the Board of Management, Volkswagen Brand (confirmed)
- Elias Pöyry, CBO and Co-Founder of Virta Global (confirmed)
- Karsten Wildberger, Board of Management Member, COO Commercial, E.ON SE, (confirmed)
Day 2  03 FEBRUARY

10:00–11:30  Session #3 | Scaling up Fleet Electrification
Building on the joint EY–Eurelectric work on fleet electrification, this panel will look at scaling up fleet electrification – the catalyst for a faster, easier and more affordable transition to electric mobility. Identifying and unlocking the full benefits of an electric fleet across different B2B segments allows innovative fleet owners to better understand the vast opportunities.

Keynote Speech: Annual EV Outlook
Dario Traum, Head of EMEA Energy Transition, BNEF (confirmed)

Moderator: EY

Panel debate:
- Sandra Roling, Head of EV100, The Climate Group (confirmed)
- Rob Fowler, CEO of Volta Trucks (confirmed)
- Angela Hullberg, Head of Sustainable Mobility at Ingka Group (IKEA) (confirmed)
- Mike Lightfoot, Chief Corporate Affairs Officer, LeasePlan (confirmed)
- Perspective of Investor/Asset Management Community
- Perspective of Corporate Fleet Owner

14.00–15.00  Session #4 | The Business of EV Charging
Fleet management services will be a big market, offering space for innovative market players to introduce new services and business offerings. This requires a future-proof charging service with intelligent and easy-to-use tools tailored for business owners and end-customers. This panel will include early-mover companies and experienced experts will present and discuss innovative solutions for solving the key challenges of today and tomorrow.

The Business of EV Charging – Introduction by:
- Chris Peeters, CEO, Elia Group (confirmed)

Moderator: Byeronie Epstein, Manager, Mobility, World Business Council for Sustainable Development, WBCSD (confirmed)

Panel debate:
Sustainable Business Model for EV Charging – what are the ingredients?
- Christopher Burghardt, EU Managing Director, ChargePoint (confirmed)
- Eric Plaquet, President & CEO, GiRÉVE (invited)

15:00–16:00  Session #5 | Advanced Charging Solutions
Strongly driven by innovation, the EV charging ecosystem can evolve across the various B2B segments for fleet vehicles in order to provide for the most efficient charging service. This panel will showcase charging solutions going beyond ‘plug-in and forget’ – vehicle to grid, wireless charging and much, much more. The questions we are all asking: how soon will these solutions become widely available and what will it take to deploy them at scale?

Moderator: Doug Miller, Business Development, Energy Web Foundation (confirmed)

Panel debate:
- Andrew Daga, President & CEO, Momentum Dynamics (confirmed)
- Oren Ezer, Co-Founder & CEO, ElectReon (confirmed)
- Nissan (invited)
- CEO of charging equipment provider

16:00–16:15  Concluding Remarks – Petar Georgiev, Advisor eMobility, Eurelectric (confirmed)
