Dear Mr Ruby,

I would like to thank you for your letter of 28 May on the importance of the European Union's future energy and climate relationship with the United Kingdom.

We share your view that the internal energy market brings benefits for all its consumers. At the same time, the UK's decision to withdraw from the EU will inevitably impact the energy cooperation with the UK. EU and national authorities as well as private parties need to step up their work on preparedness at all levels and for all outcomes. The stakeholder notices published by the Commission services are aimed at supporting this work.

I and my team stand ready to discuss these issues further with you and your teams in the coming months.

Yours sincerely,

Dominique Ristori
